Member Applicant Procedure

Because membership in the Club is by invitation only, an application must be obtained through the proposing member.

The proposer is responsible for making sure the application is complete. In addition to the proposer, four seconders are needed. The application then needs the signatures of three current board members. The proposer should be of help with the necessary introductions.

Upon approval by the membership committee the applicant's name will be posted at the Club and in the newsletter. Upon approval into membership the new member receives the appropriate billing from the business office.
